SCENERY

THE TOWER

Paradise Valley

Where the pines have fallen on the hillside
The green needles burning in the sun
Make sweet incense in the vacant spaces
Along the run
Of the rill; and by the rillside
Rushes waver and shine;
In remote and shady places
Wintergreen abounds and interlaces
With the twinflower vine.

TO THE LAKE

Away, away from men and towns,

. . . .

To the wild wood and the plains—
To the pools where winter rains
Image all their roof of leaves,

. . . .

Where the melting hoar-frost wets
The daisy-star that never sets,
And wind-flowers and violets

. . . .

Crown the pale year weak and new.

The Birches

THE RED CEDAR

The Hill

I think that I shall never see
A poem lovely as a tree.

A tree whose hungry mouth is prest
Against the sweet earth's flowing
breast;

A tree that looks at God all day,
And lifts her leafy arms to pray;

A tree that may in summer wear
A nest of robins in her hair;

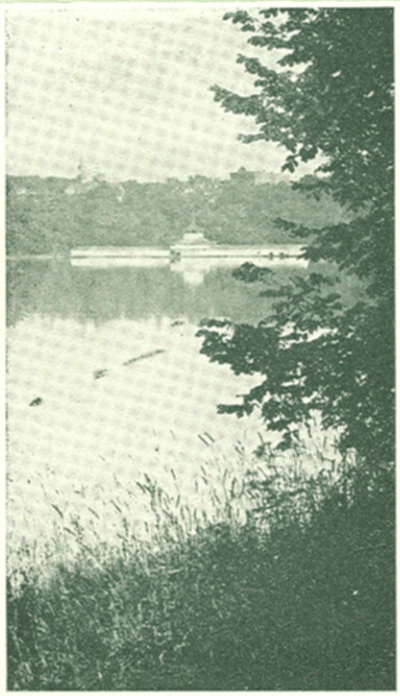

Upon whose bosom snow has lain;
Who intimately lives with rain.

Poems are made by fools like me,
But only God can make a tree.

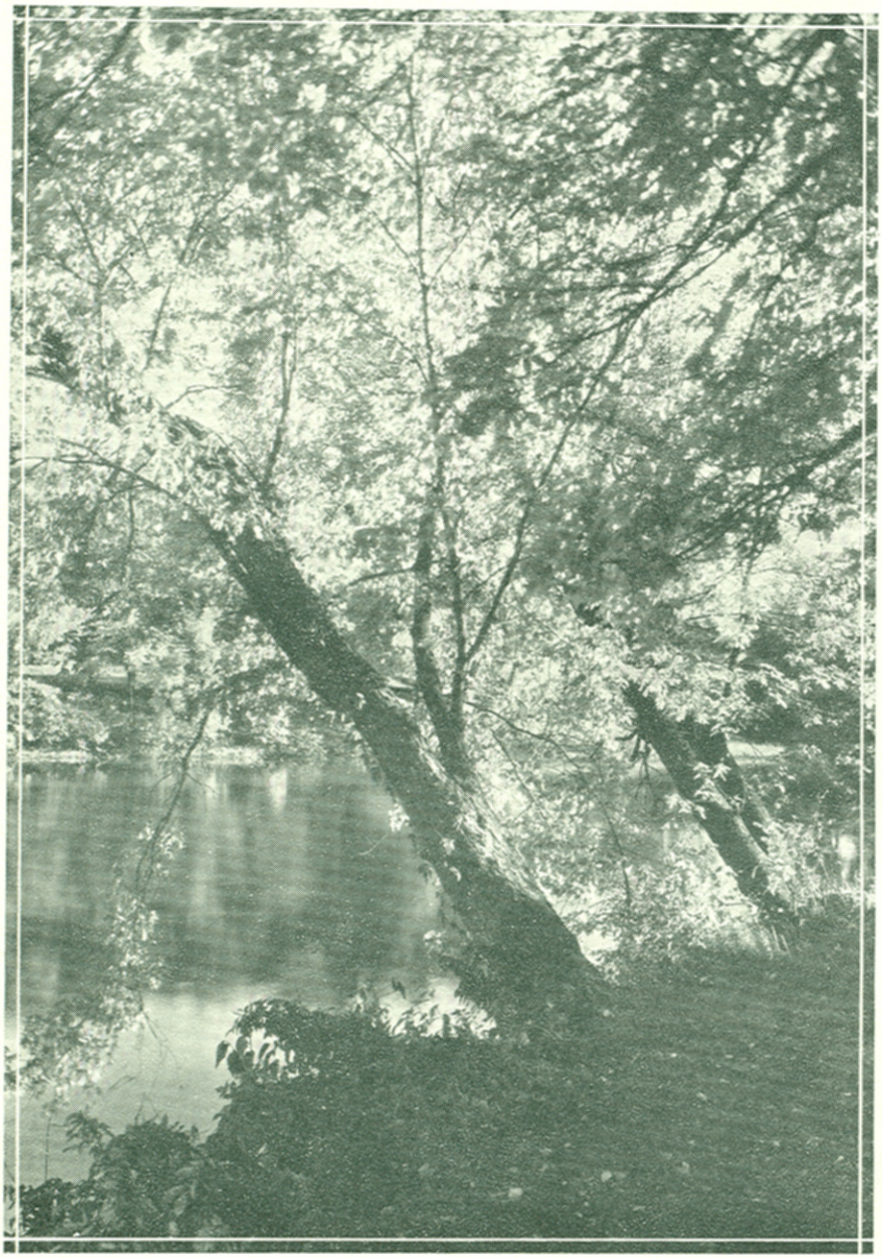

AMONG THE ISLANDS

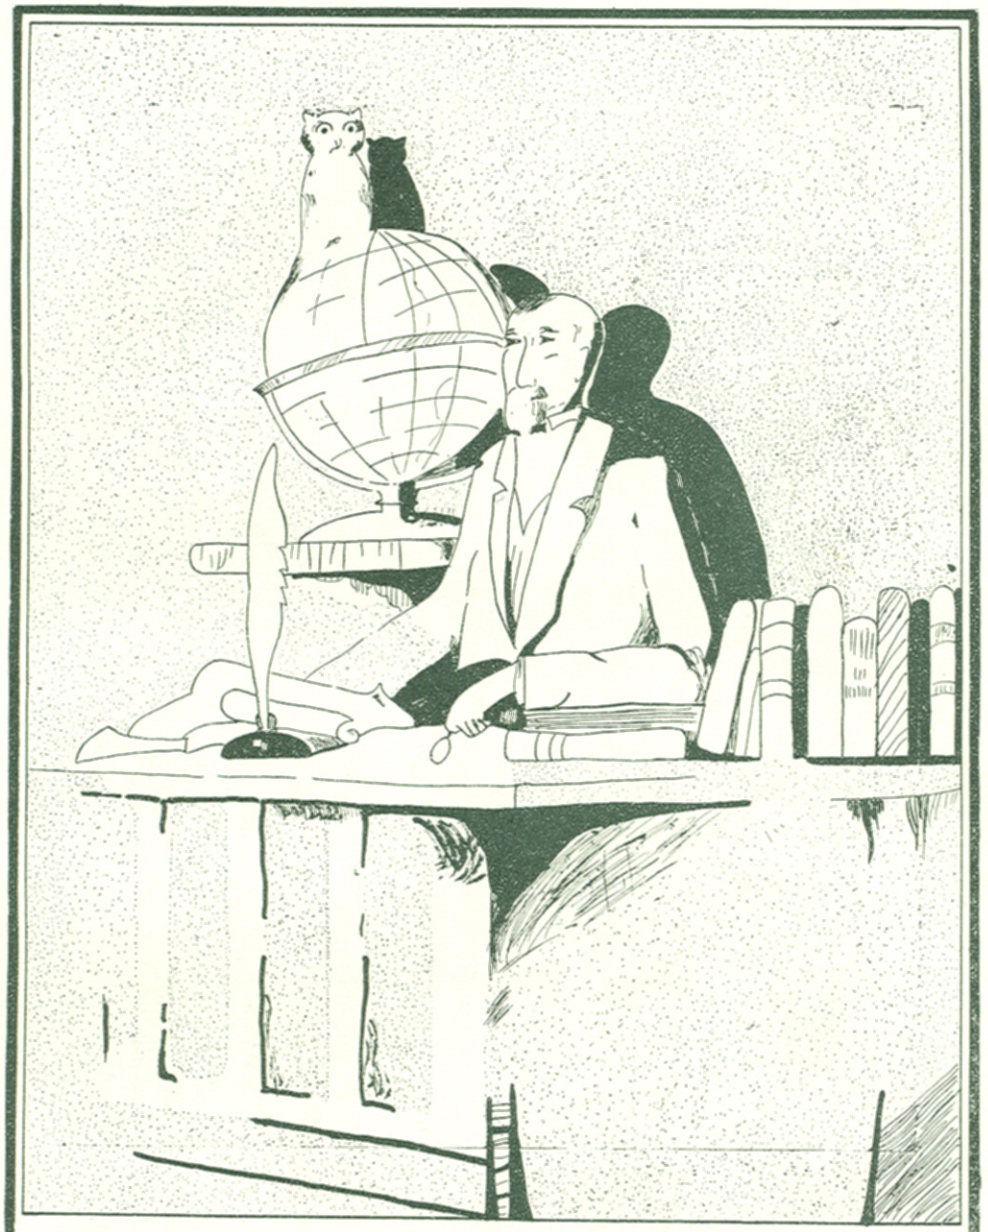

Yesterday the twig was brown and bare;
To-day the glint of green is there;
Tomorrow will be leaflets spare;
I know no thing so wondrous fair,
No miracle so strangely rare.

THE PRESIDENT'S WISH

NO man is to be envied whose success in life has been attained at the expense of sincere and honest friendships. No matter what his wealth or station that man who can forget the friendships of youth has in him elements of selfishness, conceit, and false pride which must forever hold him stranger to genuine happiness. In such cases his temperament forbids the affection and intimacy of "pals." It becomes particularly hard for him to make new friends who will be genuine and permanent.

Success in life is always applauded. But purchased at the expense of love and affection, it comes too high. Without friendships life becomes dull and uninteresting. In late years new friends are hard to make. Such friends are lost as easily as they are found.

A very sensible wish at this time when separations are natural and necessary is that the school-day friendship—the friendship of youth—may for the class of 1928 continue for a half century to hold in pleasant memory the associations of these four years and that there may be frequent meetings when the play spirit may prevail and buoyancy of youth assert itself in varied expression of happiness and joy. May the friendships of youth maintain.

SENIORS

SENIORS

THOUGHTS of the future bring memories of the past and as our Senior year draws to a close, we, the Senior Class of 1928, have happy memories of accomplishments, lasting friendships, and associations at our Alma Mater.

During all of our college days we have striven to stand together, but in this, our Senior year, we have made a special effort to strengthen the bond through the dinner meetings held each month in the Band Box. The Class of 1928 has the distinction of being the first class to adopt the Senior jacket as the official badge of Senior rank. The wearers of the Senior jacket are accorded the dignity and respect due them. The class has also been honored by being the first to wear the new official Stout pin.

We have endeavored to live up to the traditions of the school, to incorporate in our standards the ideals of the administration, and to so prepare ourselves for future work that we shall be trail blazers in new ventures for The Stout Institute, the pioneer in Industrial Education.

It is our hope that future classes will grow in strength and numbers and that they will "carry on" in the college as we hope to do in the field.

OUR PLEDGE

Alma Mater ours, again we come to thee;
Though records few we bring, and few may claim,
We ever would thy loyal children be,
And in proud toast again would praise thy name.

A most unworthy son indeed is he
Who in thy halls his earlier years would spend,
And then forget the debt he owes to thee,
Or, thankless, fail in praise his voice to lend.

New homes, new forms and faces we shall find,
In distant climes we may our work pursue,
But fast within our memories we shall bind
The lessons dear which we have learned from you.

So Mother ours—our Friend, our Guide, in one—
With heart-accented thoughts we leave with thee
This meagre record of the things we've done,
This earnest pledge of lasting loyalty.

JUNIORS

THE JUNIOR CLASS

AFTER three years of seeking, striving, and achieving, we, the Junior class of Stout, pause a moment in our busy school career to glance back upon the various vicissitudes of the years spent together in fellowship and work.

Attainments not alone in scholastic, but along athletic lines as well, have earned merited recognition. The roster of our class membership contains many names prominent in various school activities, while to the Junior class goes credit for the outstanding social event of the year, the Junior All-School Prom, the success of which bespeaks the versatility of our members.

Distinctive among all other classes, as three year students of The Stout Institute, we have striven always to uphold the old traditions and high ideals of our beloved Alma Mater.

THE SECOND ANNUAL JUNIOR PROM

THE Second Annual Junior Prom, held on Saturday evening, April twenty-first, was attended by a record number of students and guests, who danced to the music of "Cec" Hurst's Jazz Orchestra.

Colorful decorations developed in the school blue and white, were centered about the motif of the new school emblem.

SOPHOMORES

THE SOPHOMORE CLASS

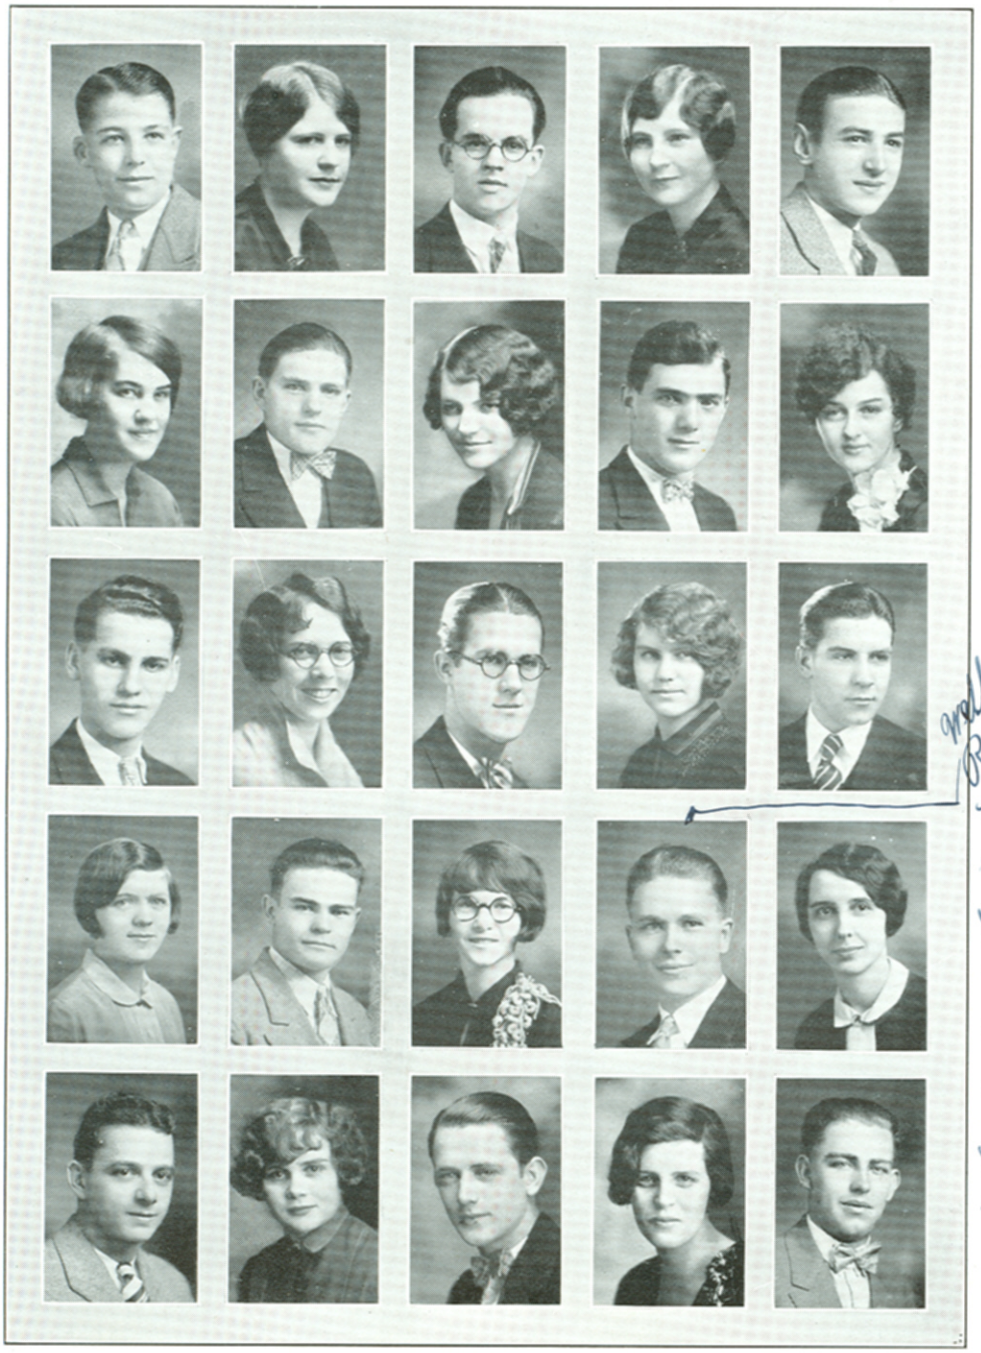

THE Sophomore Class, the first class to enter The Stout Institute on the strictly four-year basis, counted, in the fall of 1927, an enrollment of eighty-two members.

As members of this class, we have made the attempt to prove our worth to the school and to respect the standards she has set for us. In scholarship, social events, athletics, and organizations, we pass the tests well, and in every case, true school spirit with belief in the work is found to predominate in our ranks. We have two more years to prove of greater value to Stout, two more years to bind together a firm class fellowship which will be not only a credit to ourselves but to our Alma Mater. We have tried to fill successfully the places vacated for us and as we pass on, we look with anticipation to the years before us.

FRESHMEN

THE FRESHMAN CLASS

SEPTEMBER sixth saw the enrollment at The Stout Institute of a body of Freshman students larger in number than the class of last year.

For us, the first week or two of school passed in a general state of bewilderment. New friends, new teachers, unfamiliar subjects, and still more unfamiliar rules and regulations filled our lives. Would it be presuming to say that we learned more out of the class room than we did in it during the beginning week? Some things we learned through our own experiences, and some were taught by upper classmen who were, at times, stern schoolmasters. Although acting in self-defense, we managed very well and came through the first confusing weeks and the entire initiation period with colors flying.

By the time initiation was over we had made the necessary adjustments in our altered modes of living. We had formed many friendships in our own class and in the ranks of the upper classes, and were beginning to feel as if we were truly a part of the school. Freshmen have responded to practically all extra-curricular activities, and our representation in athletics, dramatics, music, and club work is one in which we may be justly proud.

ORGANIZATIONS

THE STOUT STUDENT ASSOCIATION

THE Stout Student Association, as the major student organization at Stout, has ever striven to help in making a bigger and better Stout by co-operation with the administration. Through the school year of 1927-28 the S. S. A. has endeavored to fulfill the purposes set forth for this body by carrying out the duties delegated by the constitution. These duties were discharged by the four officers, as elected by the association members: namely, the secretary and treasurer, who were elected in the spring of 1927, and the president and vice-president, who were elected during the second week of school in the fall term.

The major purposes of the organization are fourfold: to provide a smoothness in discharge of student activities through scheduling all school and social events on both a weekly and a yearly calendar; to distribute to the Band, Men's Glee Club, Girls' Glee Club, Manual Arts Players, Athletics, Lyceum, Stoutonia, and S. S. A., the money received at registration time as an activity fee; to issue to the members of the S. S. A. the master tickets which give admittance to entertainments sponsored by the above organizations; and to organize plans for Homecoming and Commencement.

Any student, faculty member, or member of the office staff, with his immediate family, may become a member of the association by paying the activity fee of four dollars per semester.

During the year, the association contributed to the social life by giving several dances for the entire student body. The dances, mixer in nature, were always well attended and greatly enjoyed.

This is an organization representative of the students in that its activities are planned and carried out by them. Each day from 4:15 to 5 o'clock a student is in charge of the S. S. A. desk to transact the business which may arise.

The employment bureau, which was formerly under charge of this student organization, was relegated to the Y. W. C. A. and the Y. M. C. A. These two organizations handle the business of getting jobs for students desirous of doing part-time work, whereas the S. S. A. desk is used merely as a medium for appointments.

Homecoming of this year, 1927, was celebrated on November 4 and 5. The S. S. A. officers in charge of the event laid plans and distributed the work to various committees and organizations. The 1927 Homecoming was pronounced the biggest success at the school in many years.

It is in all sincerity that the S. S. A. officers wish to express their gratitude to the faculty and to the student body for their splendid support and co-operation in carrying out the Association program.

HOMECOMING

BEGINNING with "The Show Off," and followed by the bonfire, owl pep session, and shirt-tail parade, Stout opened wide its spirit and started one of the largest and most successful homecomings ever seen on the Stout campus.

The night-shirt parade, after winding its way up Wilson Avenue and down Main Street, paraded to the bonfire with jubilant enthusiasm; there the costumes were judged and the mock marriage took place. With the bonfire as a setting, the colorful wedding of the Frosh President and the Soph Vice-President took place. Prizes awarded for costumes went to Irma Nichols for the best dressed girl, Sidney Cotton for the best dressed man, and Harold Taufman for the funniest dressed man.

With a setting of "Welcome" flags and decorated windows, the parade, with its gayly colored floats, was a unique sight. In the morning, a very successful and rousing assembly put everyone in an enthusiastic mood for the afternoon game.

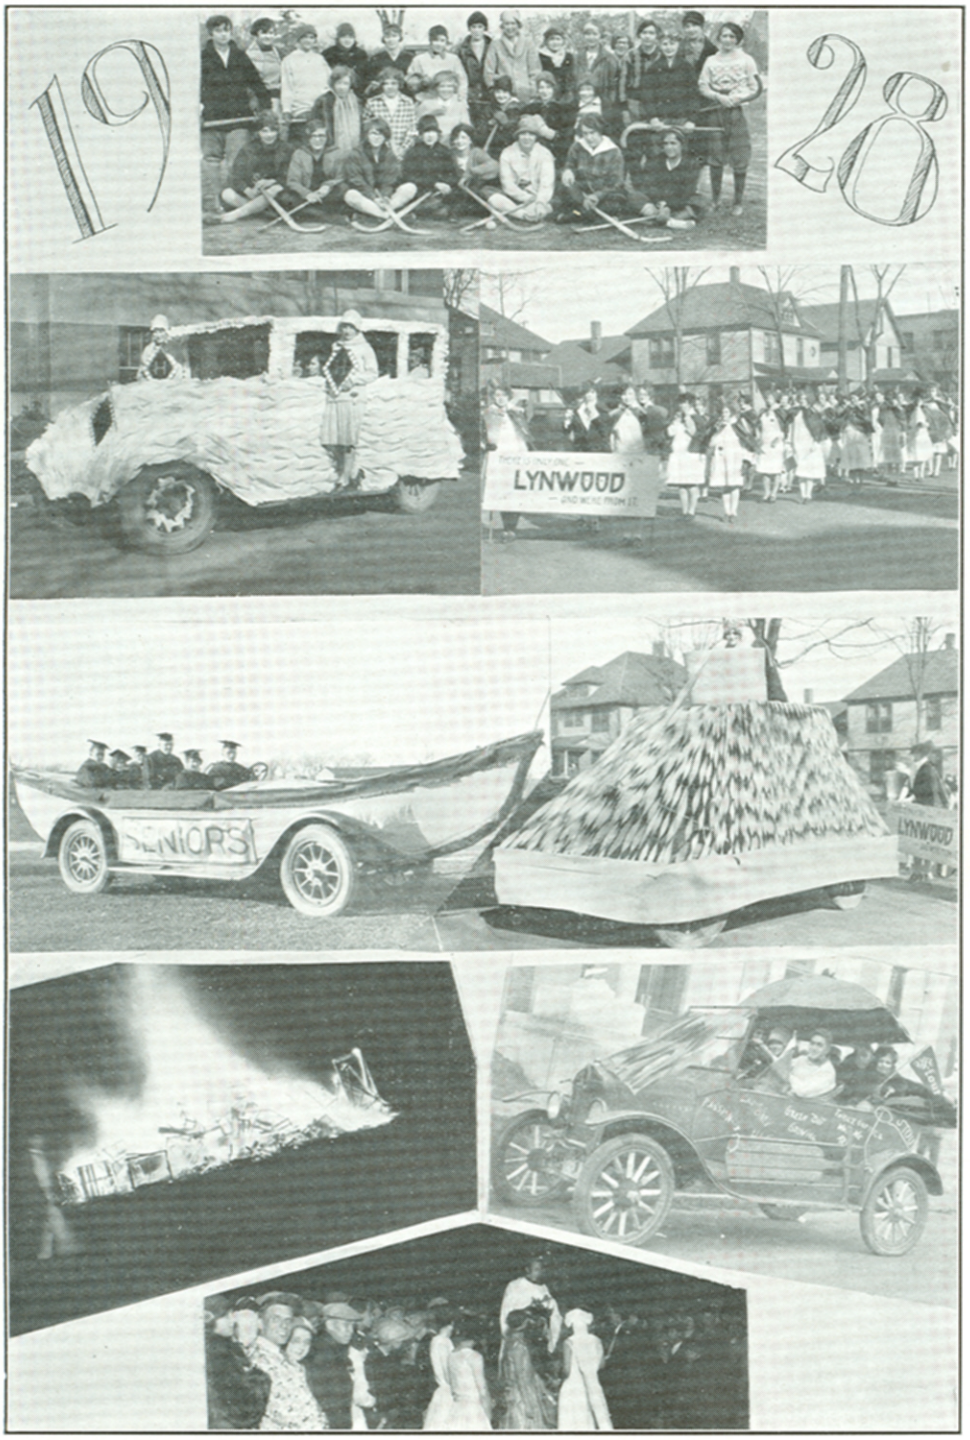

Between halves of the game, a delegation of Freshman boys, attired in almost every imaginable kind of wearing apparel, gathered on the field to give an example of their idea of how to play football. The antics of these fellows brought many loud laughs from the crowd and soon had most of them forgetting their red noses and cold feet. The Pathe News also had a representative on the field who shot the crowd from all angles; he claims he has some very good action pictures of the team. One student doubts our ever seeing them in any but the largest theaters.

The students were at the game one hundred per cent, and were accompanied by many local supporters of the school. There was also a large delegation who came from Eau Claire to see the game. Everyone sat in the grandstand; thus people were grouped together and the cheer leaders brought forth many thunderous cheers for the team.

The banquet in the evening was carried out in letter style and was well attended. The next big event of the day was the dance in the Gym. An unusually large crowd attended this last all-school feature. The dimmed lights and the cleverly arranged blue and white decorations, coupled with Benny's snappy band, all made the dance a real celebration after the afternoon's victory over Eau Claire.

The large number of alumni with us made our Homecoming complete. Four women represented the first graduation classes of The Stout Institute. They were: Miss Ruth Michaels, Mrs. Pearl Bailey Lyons, Miss Nellie Farnsworth, and Miss Hatty Dahlberg. The rest of the alumni were graduates of the last two or three years. One man travelled four hundred miles to attend; his trip no doubt makes the record for mileage.

In all, we deem our Homecoming one of the largest and most successful ever seen on the Stout campus, this assumption being based on the enthusiastic reports from both alumni and students.

STOUT STUDENT ASSOCIATION ADVISORY BOARD

EVERY well organized college has an efficient student government, eliminating waste in student funds, energies, and possibilities. Since Stout is now well organized on the four-year basis, more and more of the student regulation is being delegated to the student body. In the fall of 1927 the Student Council, which had been appointed the previous year, was supplanted by the Stout Student Advisory Board. This board consists of the four regularly elected officers of the Stout Student Association and one man and one woman elected by each of the four classes, Freshman, Sophomore, Junior, and Senior. The board is an official arm of the S. S. A. and also represents the students through their class organizations. The president of the Stout Student Association is ex-officio president of the Student Advisory Board.

With the sanction of the administrative officers of the college, the Board acts in all matters pertaining to student life and interests; it is also a standing committee on the rules of the S. S. A. A member of the Board acts as chairman of the committee governing the election of S. S. A. officers.

In carrying out its work, the Advisory Board acts in conference and co-operation with the Faculty Committee on College Organization. This committee consists of the Director of the School of Industrial Arts, the Director of the School of Household Arts, and four members of the faculty chosen by the President of the College.

THE STOUTONIA

THE STOUTONIA, weekly newspaper of the Stout campus, enjoys the unique distinction of being one of the very few college papers in the country both published and printed by students.

Three years ago The Stoutonia assumed the more definite characteristics of a newspaper. Each year it has changed its style of make-up and added new editorial features. It is still far, however, from the goal it hopes to attain after Stout has emphasized academic training for a few years. It is hoped that, from now on, ambitious writers may acquire here a more definite training for publications work.

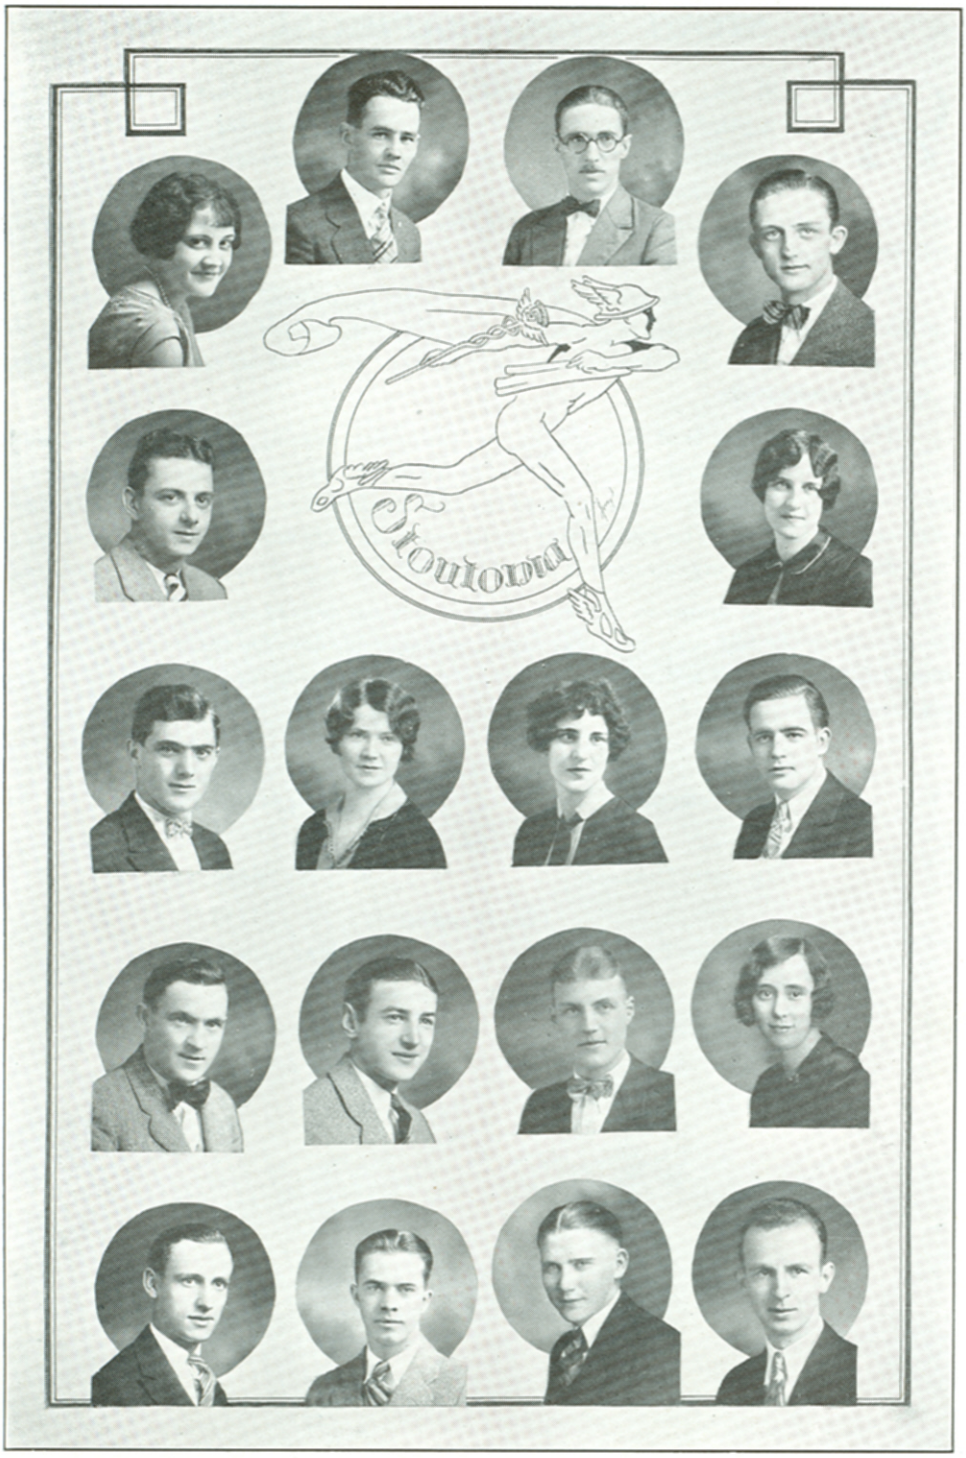

In the range of news carried, and in the completeness and timeliness of its stories, the paper has progressed during each year. Indicative of the increased importance of the college paper in campus activities, the members of the staff have shown developing interest in the improvement of their work. More than ever, they count their Stoutonia work a privilege and an honor, and feel that they have gained not only experience in writing for print but have also held a responsibility which, in building character, has aided them to a degree which few other campus activities could have equalled.

THE STOUT TYPOGRAPHICAL SOCIETY

A MAJOR interest in a major field, the Stout Typographical Society has become a helpful organization for those who are interested in this work. The men appreciate not only the advantages to be derived from an association which offers information and knowledge concerning printing, publishing, and problems confronting teachers of printing, but also enjoy the closer co-operation and fellowship with the members.

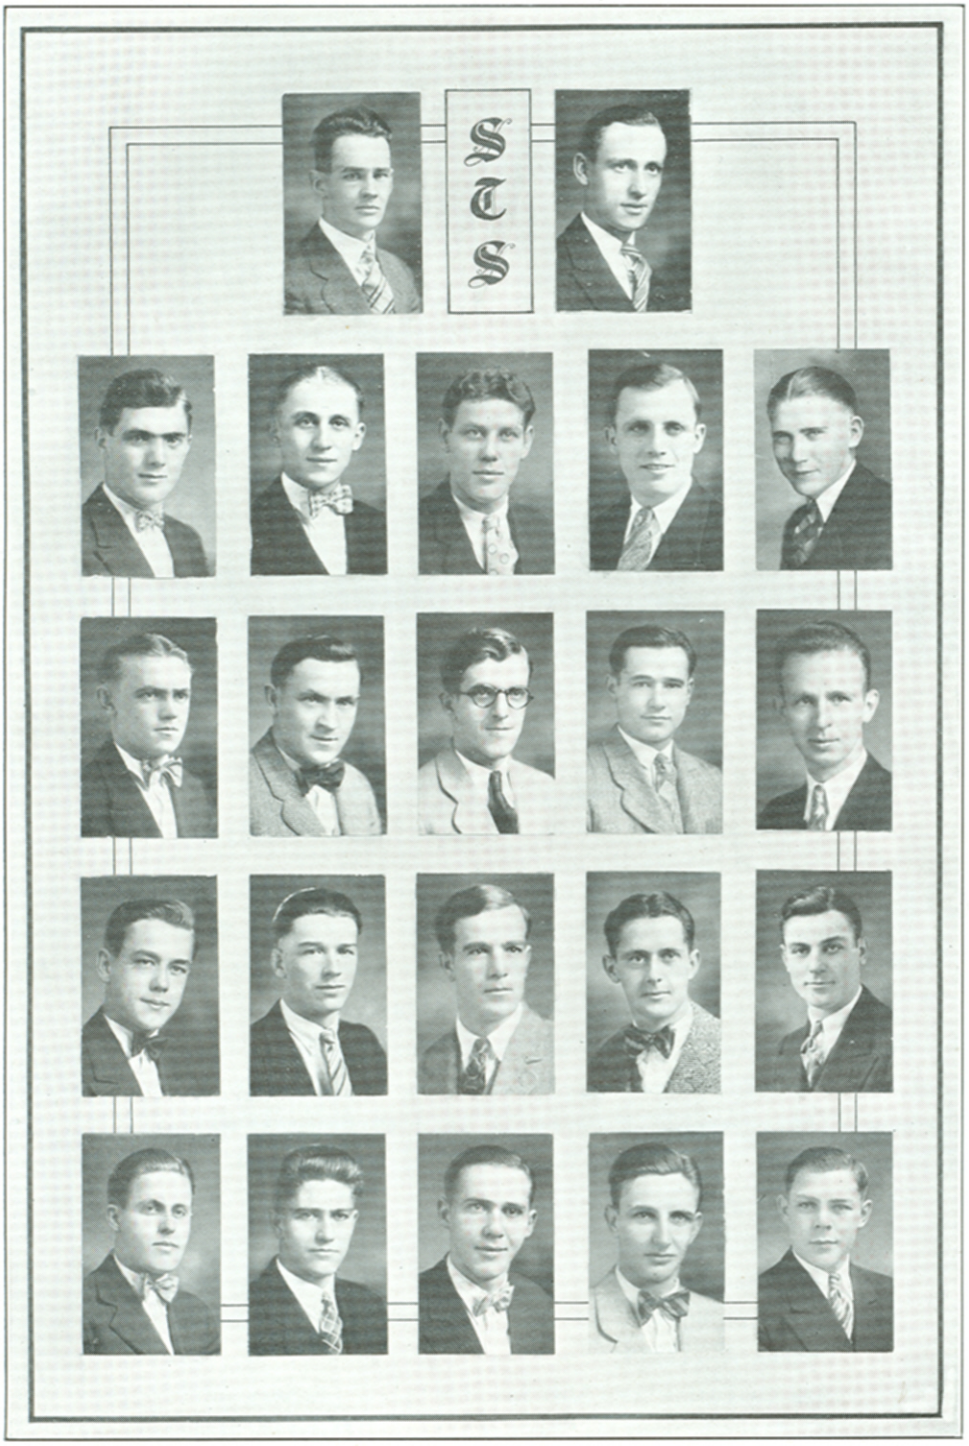

This organization has grown to include in its membership practically every man enrolled in advanced courses in printing. The society is divided into three classes or degrees, namely: Apprentice, Journeyman, and Master. Entrance to each is made through a special examination.

The meetings are held bi-monthly, on Wednesday evening. Among the members are several men who have been successful teachers or workers in the trade, and who have willingly given instructive talks to the club on problems which confront the new teacher of printing. The outstanding social event in each semester is the initiating of new members. The organization is also responsible for several school dances each year.

The club is no longer in the embryo stage but has proved its worth and its popularity. With the four-year course at Stout, it is now possible for the members to spend more time in the club and enjoy a greater fellowship that will be an admirable remembrance of Stout.

INKY FINGERS

WITHOUT attempting to create professional writers, it is the aim of Inky Fingers to develop the interest and skill of its members. By means of a point system their contributions to the club are evaluated. At the end of the year a prize is awarded to the member ranking highest.

Every two weeks a meeting is held in the Band Box during the dinner hour. A Christmas party, a Valentine party, and a spring picnic are delightful traditional events. The most interesting meeting of the year, if not in the history of the society, was that of January twelfth, at which Lew Sarett, our Wisconsin poet, was the guest of honor.

THE SCIENCE CLUB

AT THE beginning of the first semester of this year a number of the faculty and upperclassmen of The Stout Institute who are especially interested in the various fields of science showed their interest by formally organizing a club known as the Science Club.

The purpose of the Science Club is three-fold: to keep abreast with the scientific spirit of the times, to create an interest in the promotion of science, and to broaden our vision of the part which science plays in a liberal education.

Membership in the Science Club is open to men and women, but is limited to faculty, Seniors, second semester Juniors, and such others as may be recommended by science instructors.

The officers for this school year are:

DR. FREDA BACHMAN - - - *Faculty Advisor*

STOUT HOME ECONOMICS CLUB

THE membership of the Stout Home Economics Club, formed in 1924, is composed of Junior and Senior girls in the school of Household Arts. The purposes of the organization as outlined in the constitution are: to better acquaint girls of the Junior and Senior classes with one another, to provide social times, and to secure home economics speakers to address the school.

Meetings are held on the first Thursday of every month and are made up of business and social programs.

The club has been accepted into the National Home Economics Association, and was admitted into the Wisconsin Home Economics Association in 1926 as a student club. This year the girls are working hard to make the club a national sorority affiliated with other home economics sororities.

THE PHILOMATHEAN LITERARY SOCIETY

THE Philomathean Literary Society was organized for the purpose of furthering general culture. The work this year has varied somewhat from previous activities. The girls decided that they would like to take up a study of modern American poetry, grand opera, and social etiquette. These subjects formed the basis of the programs held at the meetings.

This year the Philomatheans, with the Hyperians and the S. M. A., decided to take in their new members by means of rushing and pledging, rather than by the method formerly used. This change has resulted in increased interest and pleasure, both for the pledges and for the old members.

THE HYPERIAN SOCIETY

THE Hyperian Society, which aims to study some of the problems of social welfare work, is interested in local projects. Not only has the society continued to care for its adopted daughter, but it has also shown its interest in the needy children of the community. The annual Christmas party for needy children, sponsored by the organization, contributed much to the enjoyment of both the girls and the children.

A literary and social program is planned for the bi-monthly meetings. At the annual breakfast at Homecoming, the Alumnae, who have been loyal in their support of the active members, may meet the new members, and renew their acquaintance and interests in the work of the local group.

THE MANUAL ARTS PLAYERS

THE only dramatic club on the Stout campus, the Manual Arts Players, has successfully produced four plays during the past year. The Homecoming play, "The Show Off," a comedy, and two plays presented at Christmas time, "Poor Maddalena," a fantasy, and "For the love of Pete," a farce, were enjoyable productions. A comedy, "When's Your Birthday?" was given on March 23. Another farce, given at commencement time, concluded the dramatic work of the club.

The plays did not furnish the only entertainment, for in the spring a costume ball was given in the gymnasium.

STOUT Y. M. C. A.

THE Stout Y. M. C. A. was organized for the following purposes: to lead students to faith in God through Jesus Christ; to promote their growth in Christian faith, especially through the study of the Bible; to challenge them in united effort to make the will of God effective in human society, and to extend His Kingdom throughout the world.

The membership of the Y has grown three-fold during this past year, giving it a total of some sixty members. An advisory board has been organized which includes five of the men on the Stout faculty.

Service for others is one of the outward signs of a Christian. The Y aims to be of service both to its members and to the school through its religious, social, and educational activities.

The Stout Y. M. C. A. has expanded to such an extent that it now has club rooms available for its members. This club room is located on the third floor of the gymnasium, and is used for meetings, study, and recreation. During this expansion the Y has taken over, in co-operation with the Y. W. C. A., the Stout Student Employment Bureau.

The regular meetings of the Y are held on Thursday evenings. During the past, these meetings have been featured by talks on topics of general interest by the faculty members, by outside speakers, and by students.

THE MARQUETTE-LA SALLE CLUB

THE Marquette-LaSalle Club is the Catholic young women's and young men's club of The Stout Institute. At present the enrollment is about forty.

The purposes of the club are: to promote the common interests of the Catholic young women and young men at Stout; to create a feeling of fellowship and co-operation among these students by affording them a means of becoming better acquainted with one another; to inspire confidence and self-reliance when in the presence of others, by means of parliamentary practice and other activities; to co-operate with the other organizations of the school in social and other affairs; and to serve as an agent in the development and perpetuation of high moral character.

THE STOUT LUTHERAN STUDENT ASSOCIATION

THE Stout Lutheran Student Association was organized December 7, 1927. The following week a meeting was held to adopt a constitution and to elect officers.

The purpose of the Lutheran Student Movement in the higher institutions of learning is to bring about a close relationship among Lutheran students, and to assist in furthering such measures as will be beneficial to the Lutheran church at large. The work is carried on in a general way, not being directly connected with any particular branch.

Meetings were held throughout the second semester. Two delegates were sent to the regional conference which was held in Minneapolis in February. There were eighty Lutherans in attendance at Stout this past year. It is hoped that the organization may carry on and be of real service to the student body.

STOUT Y. W. C. A.

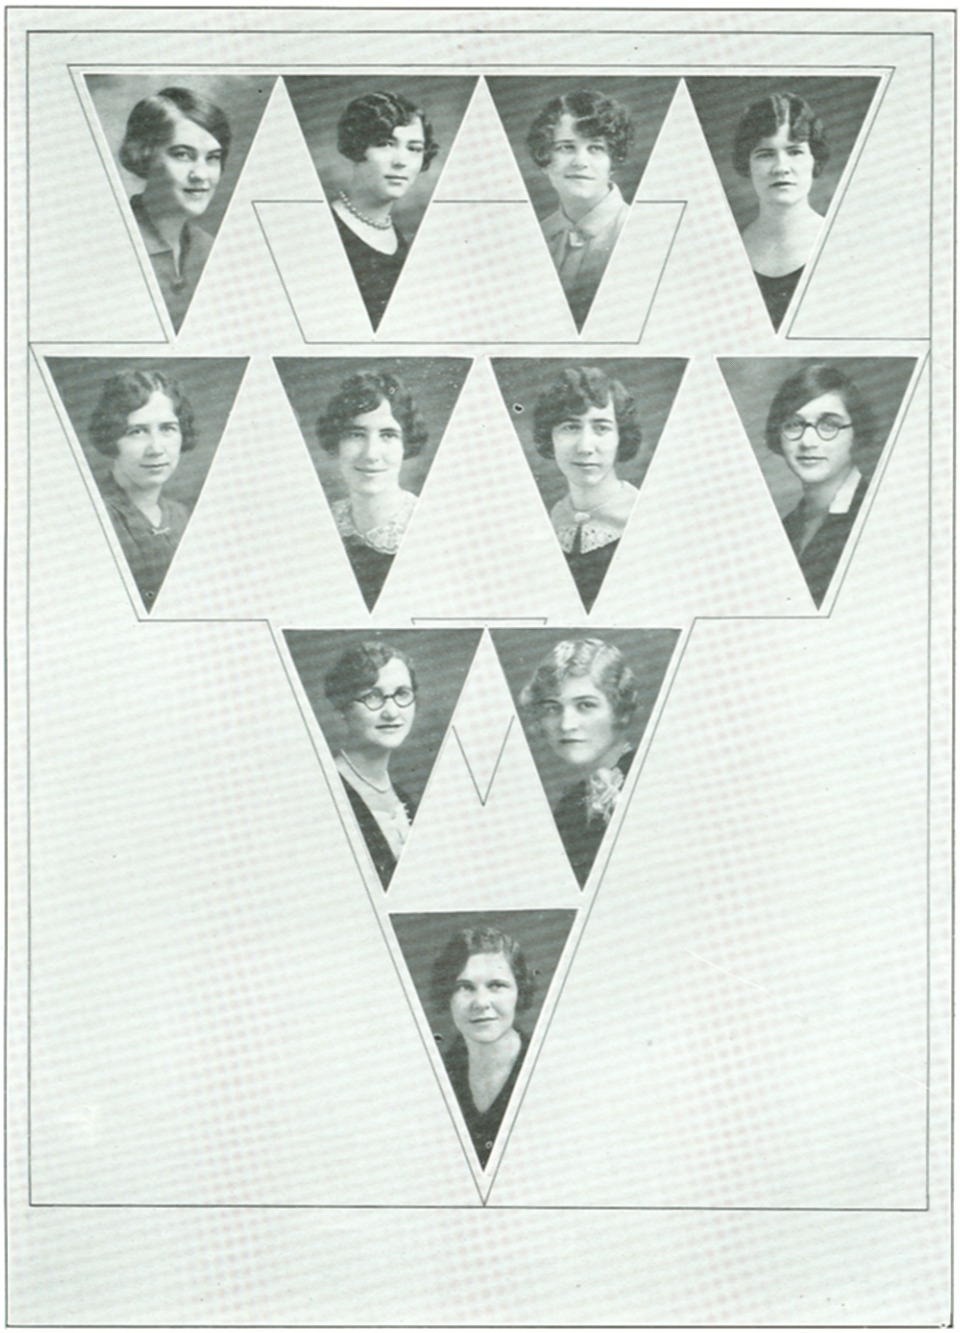

THE Young Women's Christian Association of The Stout Institute, an old and well-established organization, had a membership of one hundred and ten during the past year. Through their weekly contacts these girls were embued with the desire to create a spirit of Christian fellowship and purposeful living.

Through their Wednesday meetings, sales of various kinds, the annual Kid Party, special meetings with outside speakers, and their many other activities, they endeavored to create friendly attitudes on the campus and broaden their sphere of usefulness. The cabinet, consisting of eleven girls, is elected from the whole association and they, with the aid of their committees, are responsible for the organization of activities throughout the year.

GIRLS' GLEE CLUB

THE Girls' Glee Club was reorganized at the beginning of the year, the membership being limited to twenty girls instead of thirty as it had been formerly.

A concert, consisting mainly of Indian music by Zamecnik, Logan, Leeurance, and Cadman, was presented in the spring. Practically all the efforts of the organization were centered in this direction.

MEN'S GLEE CLUB

THE first meeting of the Men's Glee Club in September found many old members back, not only from last year, but also from previous years. The club membership was enlarged from sixteen to twenty to accommodate the talent available.

As director of the club, Mr. Good has been unsparing in his efforts to develop an interesting organization. Because of his leaving at the end of the first semester, the men practiced twice a week to enable them to give their home concert in January.

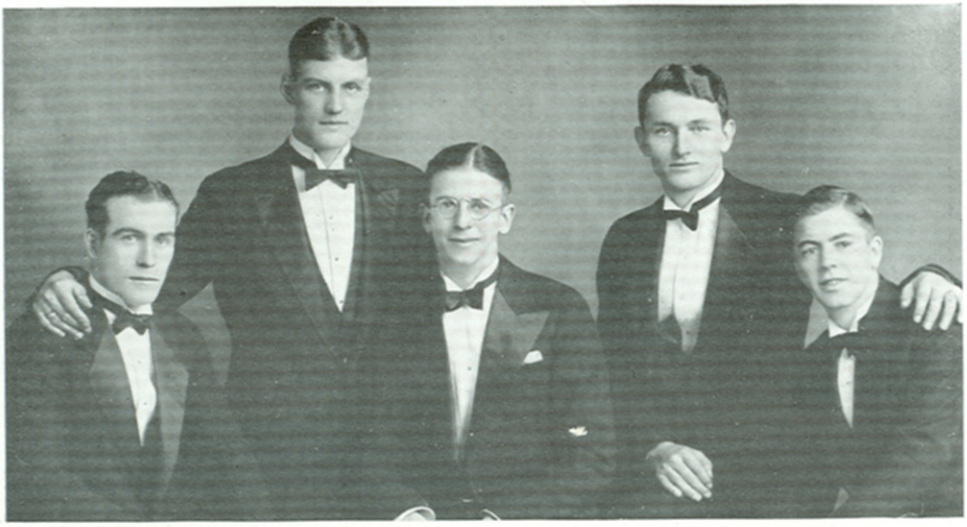

At the first business meeting the following officers were elected:

STOUT QUARTETTE

ONE of the most popular musical organizations of the school this year has been the Stout Quartette, which has proved its worth and ability on numerous occasions. The demand for these popular entertainers was so great at times that it was impossible to accommodate all the requests that were received.

Some of the engagements and appearances of the quartette are as follows: Stout Homecoming, Glee Club Concert, school organization banquets, school dances, Tower Benefit Movie, All-City Football Banquet, Lutheran Men's Association, Churches, town organization dinners, and programs on various occasions.

H. Hawkins - - *Second Tenor*

THE BAND

NO ONE organization in our system of student activities has been more loyal in its support than our ever ready band. It has stimulated pep and furthered school spirit throughout the entire school year. Homecoming events, football and basket-ball games have been augmented by carefully prepared musical programs. The success of these programs is a result of the combined efforts of the director, Mr. Charles Ingraham, and the thirty participating members.

It is a self-evident fact that the quality of the Band is continually improving; it will serve the school in the future to an even greater extent than it has served it in the past.

BERTHA TAINTER HALL

BERTHA TAINTER HALL is the oldest of the three dormitories provided for Household Arts students at Stout. The building was once the residence of an old Menomonie family, prominent during the pioneer days and for whom the dormitory was named. The hall accommodates about thirty girls, usually from the upper classes. This year, however, Freshman and Sophomore girls were admitted.

Bertha Tainter Hall is located apart from the rest of the school on the banks of Lake Menomin. The many pines and oaks help to seclude it from the public eye, and make it a charming place to rest after a long day of work and study.

STOUT METALLURGY CLUB

THIS year marks the fourth anniversary of the Metallurgy Club. These years have witnessed a noticeable improvement in the work and scope of the organization, the object of which is to bring together a group of men interested in metals and metal work, to encourage a desire for further development in this work, and to effect a closer fellowship among the men who are majoring in the metal courses.

At the meetings, held on the first and third Wednesdays of each month, interesting papers dealing with some phase of metallurgy are read and discussed. This year each report was mimeographed and a copy was given each member. In this way each member will have in his possession, when he enters the teaching field, valuable lecture material.

The club has grown steadily in importance and will continue to be regarded as one of the most practical organizations in the school.

THE WOMEN'S ATHLETIC ASSOCIATION

THE Women's Athletic Association has for its purpose the promotion of interest and participation in athletics for the girls of the school. The club is organized on the point system, the girls being awarded points for their work in various sports, according to the plan worked out by the members.

Before the girls can become members, they must earn one hundred fifty points, thus showing their interest and willingness to carry on the club's activities.

Other awards for points are: W. A. A. emblem for six hundred fifty points, letter for eleven hundred points, and sweater for fifteen hundred points. Points are earned by participation in various athletic activities, including hiking, swimming, skating, hockey, basket-ball, volley-ball, baseball, and tennis.

The W. A. A. sponsors the following inter-class tournaments; hockey, basket-ball, volley-ball, and swimming meets.

In February the club gave a Valentine Dance, the affair being different from the usual school dances and featuring stunts and novelty dances.

For its advisor the Association has Miss Balerud, our physical education instructor.

STOUT RIFLE CLUB

THE Stout Rifle Club, which has for its purpose the promoting of better marksmanship among its members, was organized on May 17, 1927. It is affiliated with the National Rifle Association from which it receives yearly allotments of ammunition and equipment for target practice. The club, which is divided into three teams, has a total of sixty members. All phases of rifle practice and marksmanship are taught to the members according to and in full compliance with rules and regulations given by the National Rifle Association. Indoor rifle practice is held on a multiple range which the club has built in the Stout Armory. Arrangements are completed for outdoor target practice with high power rifles on the Company A's range during the summer months. Students, faculty members, and employees of The Stout Institute are eligible for membership.

BENNY'S BAND

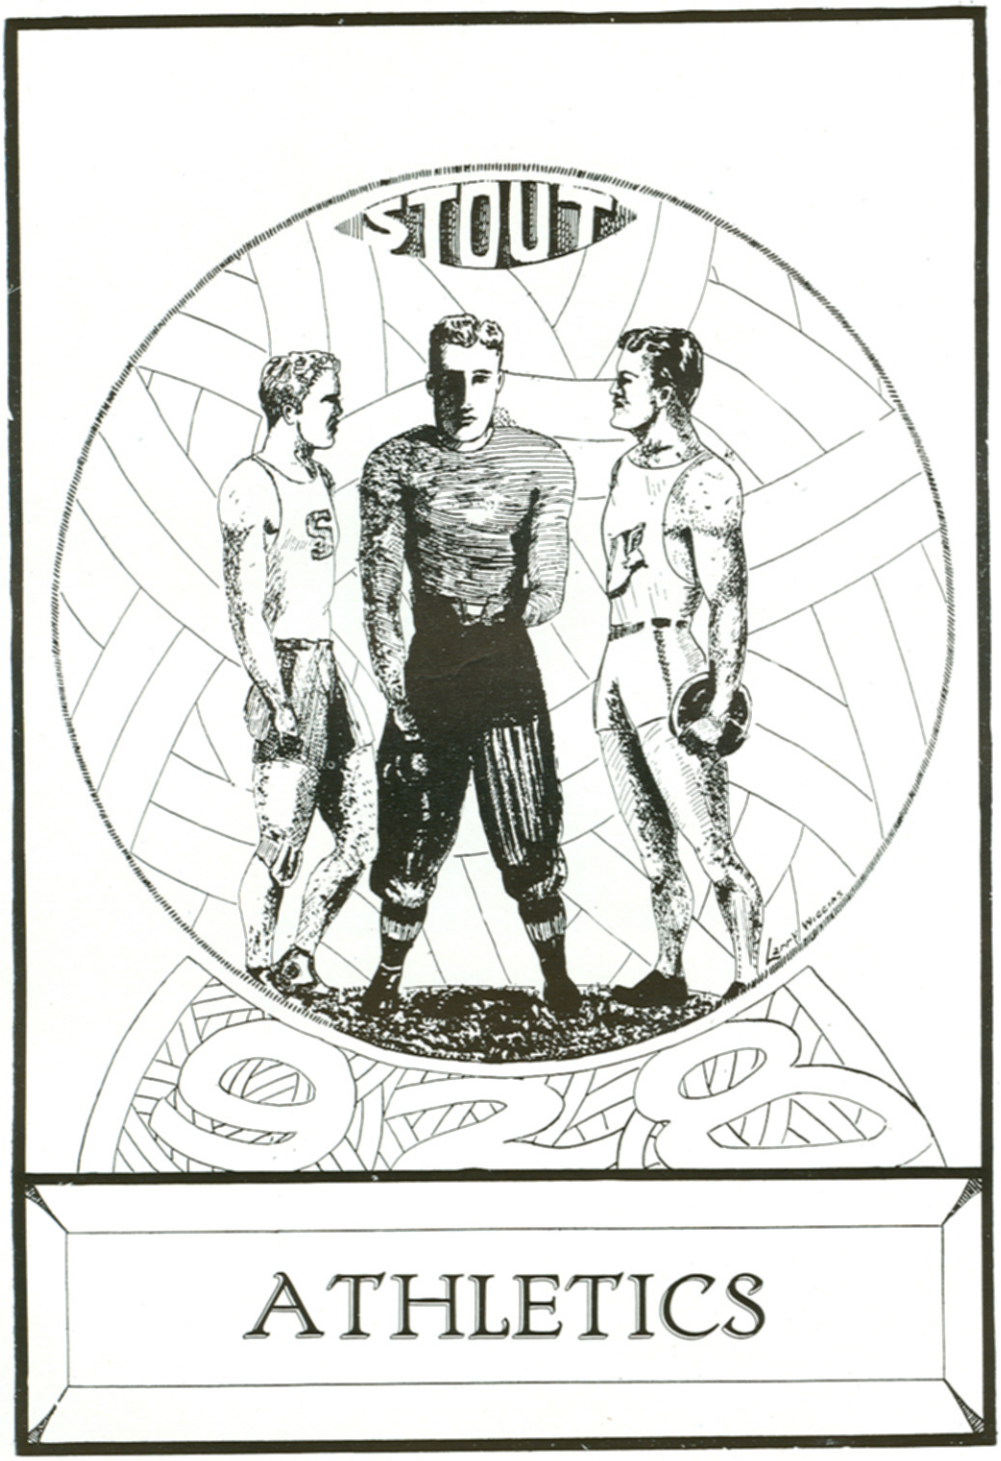

PRACTICALLY all of the Stout parties in the past year have danced to the music of Benny's Band. This orchestra was reorganized with a nucleus from Bud's Novelty Band which play for college dances last year.

The orchestra is composed of Stout and Menomonie high school students. The variety of their programs was maintained by constant practice, and their popularity increased steadily during the year.

The personnel includes: Bernard Schadney, director and violin; Mrs. Vera Tilleson and John Barber, piano; John Faville, and George Merdutt, drums; Noel Winn, Philip Olson, and Theodore Pierson, saxophones; Paul Kabot and Bud Micheels, trumpets; Claire Knutson, trombone; Harold Reppe, banjo; Leonard Howe, bass.

COACH PAULUS

S. E. Paulus, coach of athletics at Stout, started his work here in the fall semester of 1927. Much praise is due this man, not for the conditions of the teams, nor for the showing they made in the conference, but for the fighting spirit which he instilled into his teams whether winning or losing. He has the ability to whip raw material into shape. He believes in clean, sportsman-like competition.

CAPTAIN HANKE

Captain Ion Hanke won his title through his ability as a football player, and his clean, sportsman-like attitude on the field. "Duff" has played two years under the blue and white and was always on the job and feared by his opponents. His first year found him in the backfield, but this year he was shifted to center and was Stout's defensive backbone. He was ranked as one of the foremost centers in the state conference.

THE 1927 FOOTBALL SCHEDULE

September—

24 The first game of the season was a victory for the Stout Trainers in the defeat of the Winona State Teachers, score 6 to 12.

October—

1 Battling on a wet field at La Crosse found Stout playing its first conference game, coming out on short end of a 26 to 7 score.

8 In their second victory Stout defeated the Army eleven to the tune of 25 to 0.

15 The big game of the year at River Falls. Over three hundred students went over. Stout took its second defeat, but tried a corking aerial attack which nearly proved successful. Score 19 to 7.

29 In their first appearance on home soil the Trainers bowed to Superior, 6 to 21, but not before we had thrown several firebrands into the smoothly running Tubbs machine.

November—

5 Homecoming, Eau Claire here. Real rivalry. The boys from over east were entirely outplayed, outwitted, and outguessed. Score 10 to 6.

THE 1928 FOOTBALL SCHEDULE

September—

29 We play La Crosse on home grounds.

October—

6 Paulus' machine plays at Fort Snelling.

13 River Falls here, Homecoming.

20 Trainers meet the Stevens Pointers here.

27 Stout plays Superior on their field.

November—

16 A journey to Whitewater Normal.

1928 FOOTBALL SEASON

By
Julian N. Johnson

WHEN Sil Paulus entered the Trainer camp as head football coach of The Stout Institute team, he was met with a group of thirty-five husky candidates that were working for various positions on the varsity squad.

Much praise is due Coach Paulus, not only for the condition, but also for the general morale of the team. He developed a group of pluggers who fought every inch of the field, winning or losing. Under his guidance and the field generalship of Captain Hanke, the season was successful.

Fourteen veterans reported for the first practice, Captain Hanke, Cvengros, Loomer, Olson, Ferdon, Opem, Peterson, Jackson, Paciotti, Hawkins, Notebaart, Erchul, Decker, Johnson, and Radke. Of course, there were early season defects, and the loss of Radke was a severe blow to the Stout machine, but the general results were fine.

The first tilt of the season found the Trainers at Winona State Teachers' College where they emerged victorious with a 12 to 6 score. Stout scored in the second quarter on a series of passes, with Cvengros spearing a thirty yard heave from Radke. Later in the same period, Notebaart intercepted a pass and dashed eighty yards for a touchdown.

The next week Stout opened the conference season at LaCrosse. Wide awake to all opportunities and taking full advantage of all breaks, the down river team scored a 31 to 6 victory. Erchul smashed over for the only touchdown in the second quarter. Hawkins, playing his first game at the quarterback position, came through in fine style, passing, running, blocking, in fact, handling the team like a seasoned general, but both Erchul and Hawkins received such punishment that they were on the casualty list for the next three weeks.

The following week the team journeyed to St. Paul to meet the Army eleven where they demonstrated a beautiful passing attack that the soldiers could not solve. After

several exchanges of punts, in which departments Stout excelled, Snelling fumbled and Stout recovered on the Army five yard line, Decker carrying the ball over for the first six point marker. In the second quarter a beautiful pass from Peterson to Cvengros gave Stout its second touchdown; again in the third quarter Decker reached high into the air, gathered in the oval, and trotted twenty yards for the third touchdown. The final six points came in the latter part of the fourth quarter when Mike speared one of Peterson's speedy passes and romped twenty-five yards for the fourth and final touchdown, bringing the score to 25-0. Paciotti and Olson played strong defensive games and often tore through the line, stopping the Army backs before they could get under way.

The next game found the Blue and White battling the powerful River Falls aggregation at their homecoming celebration. Fighting consistently and threatening the enemy's goal in all periods, Stout was nevertheless no match for River Falls on

straight football and bowed to the Teachers 19 to 0. Anderson displayed some nice tackling and often stopped onward marches of the River Falls backs. The entire line fought like demons even if the odds were against them and often broke through to stop the opposition. Opem played a strong defensive game, making several tackles in the open field which would have meant sure touchdowns if missed. The Peterson-to-Notebaart passing combination functioned beautifully at times and often completed passes for much yardage.

Then came a week's rest, time which Paulus used in preparation for stopping the powerful attack of the Northerners, and stop them he did. It was the first appearance of the Blue and White on home soil and, though they received their third conference defeat, it was not before Stout had thrown several demoralizing firebrands into the smooth Tubbs machine that the argument was settled. All three touchdowns came in what may be termed "flukes;" Stout opened up with a vicious aerial attack that scored the first touchdown and was on its way to the second when the breaks began. From then on conditions reversed and Superior scored three times, to end the fray with an 18 to 6 score. Captain Hanke demonstrated his ability by stopping the fleet Superior backs in their tracks. Jackson played a strong defensive game and much of that day's performance placed him at guard on the All Conference Eleven. Brown, who went into the line, held his own and few yards were gained over his position.

The final game of Stout's Football season was a fitting conclusion to the Homecoming program when they administered a terrible beating to Eau Claire, 8 to 0. The score tells little because the Blue and White threatened repeatedly, but due to the adverse weather conditions fumbling was frequent. The famous Peterson-to-Notebaart combination brought the ball up to the enemy's eight yard line; after Decker and Opem had advanced the ball to the two yard line, Erchul smashed over for the lone touchdown, a safety coming early in the opening period. Stout had little use

for the forward pass, finding the visitor's line easy at all times. In the fourth quarter Stout threatened, having the ball on the one yard line only to be held for downs. There was no question in the minds of the homecoming crowds as to which was the superior team. Stout gained ground on nearly every thrust and should have scored at least four touchdowns. Eau Claire looked good only once, that in the last minute of play when a Stout punt was caught on the dead run and returned to the eight yard line. Stout held, in this one supreme test, without apparent difficulty, rounding out as clean a win as could be recorded.

The season closed found the Trainers making a percentage of 500, winning three and losing three. Thus ended the season of 1927. Although apparently unsuccessful in winning a high place in the state conference, Stout made a creditable showing that upholds the laurels of the Blue and White.

THE FROSH SQUAD

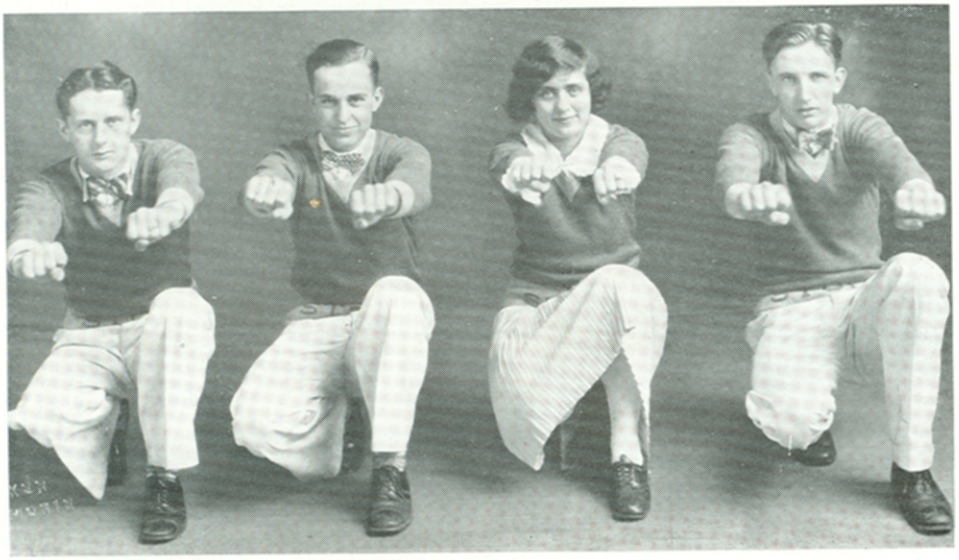

REVIEW OF THE 1931 FRESHMEN FOOTBALL SEASON

FOR the first time in the history of the school, The Stout Institute has been represented by a Frosh football team.

The team started the season with about twenty-five yearlings who answered the call. Under the tutelage of Coach Radke the Frosh squad developed into a smooth working unit that scrimmaged against the varsity, giving the latter stiff opposition at all times.

The only encounter that the squad entered into took place at River Falls where they emerged on the short end of a 10 to 13 score.

Captain Frazer, Paulus, Hanson, Reeder, Kogl, and Morrison seemed to stand out during the season and should prove strong contenders for the various varsity positions when the call is issued for the 1928-29 season.

OUR CHEER LEADERS

OUTSTANDING in the 1927-28 season of Stout's competition are the four persons who have merited and received the school's sincere admiration. The responsibility of leading the cheering of Stout fell upon Harold Reppe, rooter king, Corene Baysinger, Roland Norris, and Bill Gardner. This team of cheer leaders has shown what real school spirit at Stout should be.

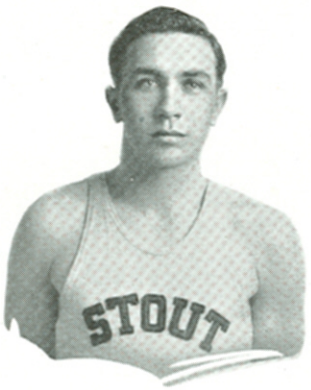

Harold Reppe, rooter king, performed his duties in a most satisfactory way. During his last year with us he has given us his best.

Corene Baysinger, a senior and the only girl on the team, was always peppy and a very interested follower of all the games.

Roland Norris and Bill Gardner, acting as cheer leaders for the first time, seemed almost like veterans at the job. Both did all they could for the promotion of school spirit.

THE BASKET-BALL SEASON

By
Ruth Lindall

WHEN Coach Paulus issued his first call for basket-ball material he had no small problem facing him. As was witnessed all year, Stout had a schedule that may be classed as the toughest in the entire conference. Thirty-five men responded to first summons; this squad worked for about two weeks; then the usual elimination began and the squad was cut down to twelve men.

With the loss of such men as Radke and Tilleson, all conference forwards, Coach Paulus faced the problem of developing a pair of forwards who could take their place. Opem, Notebaart, Schaude, Jackson, and Cvengros alternated during the season, with the major duties falling on Opem and Notebaart. Peterson played his third and last year at center while Decker and Greeley did duty on the rear wall.

In the first game of the season with the Winona Teachers' College, five extra minutes of play were needed for the Trainers to win. In the extra period the Trainers showed a new style of play by coming through with a 21 to 28 victory.

The next game with Luther Phalen was a duplicate of the first, a win for the Trainers.

The first setback of the season came when the boys lost to Fort Snelling by a 28 to 19 score.

The same week another game was played at Luther Phalen, but this ended in a defeat for the Trainers by a score of 28 to 19.

THE BASKET-BALL SEASON—Continued

The first conference game was lost to River Falls. It was a fast, hard fought game. However, the Falls boys had a little edge on Stout boys and beat them by a score of 29 to 19.

Stout's second conference game was played with LaCrosse. Coach Tyler's basketeers showed excellent form and defeated Stout by 32 to 17. Notebaart led in scoring. Greeley and Decker played a steady game at guard.

Thursday, February 9, found Stout battling her old rival on the home court. Both teams played splendid basket-ball. The game ended with Stout 27, Eau Claire 22.

The next week Stout met LaCrosse and suffered a defeat. Though the Trainers fought hard, they could not quite out-fight their opponents and got the short end of 32 to 17 score.

The next game was played away from home with Superior. Superior kept the lead through the entire game; the game was a slow and rugged one, the Trainers coming back with a 36 to 22 beating.

A fast and furious game played at Stout was that with Superior, when at the last minute of play the Trainers lost 31 to 29.

The last game of the season was played at Eau Claire. The entire student body backed the team and Stout appeared at Eau Claire one hundred per cent. Stout started the game with a fine show of teamwork, but Eau Claire had a little over them and won 31 to 27.

FRESHMEN BASKET-BALL

AS with football, this is the first time in the history of the school that Stout has been represented on the hard court by a Frosh team, and still more unusual is it to be represented by such a squad as the student body had a chance to witness in action this year.

Captained by "Lu" Paulus and coached by Rox Radke, this band of yearlings entered eighteen frays, and out of every battle they emerged victorious. Such a record is one we read about but never see. This tribe tasted victory in every conference camp; with three years to perfect their style of attack and play, they should hang up an enviable record for their Alma Mater.

Besides defeating both River Falls and Eau Claire twice, they won the city championship which is a credit to the school and an honor to the Frosh class of 1931.

A LESSON IN GRAMMAR

You see a beautiful girl walking down the street. She is, of course, feminine. If she is singular, you become nominative. You walk across to her, changing the verbal and then becoming dative. You walk home together. Her mother is accusative and you become imperative. Her brother is an indefinite article. You walk in and sit down. You talk of the future and change to the object. Her father becomes present and you become the past participle.

THE ELECTRICIAN'S LOVE SONG

Within my heart, throughout the past,
Science predominated,
And through magnetic fields it passed
Completely insulated.

Those bodies, charged and dangerous,
That struggle to entwine us,
Passed near me, registering plus,
But I was always minus.

And then I came within your field;
'Twas surely providential,
For, suddenly, I felt, revealed,
The force of your potential.

Your power is ruthlessly applied,
Ever I thrill and quiver
More positively electrified,
But you are negativer?

Ever you flee away from me,
As if my love confounded you;
Where is your conductivity,
Has some disaster grounded you?

The force between us, you're aware,
You'll pardon my insistence,
Varies inversely as the square
Of intervening distance.

Who has short-circuited our arcs?
Let's banish all deterrents
And turn our intermittent sparks
To alternating currents!

My voltage is tremendous; oh,
I would your heart were warmer,
I wish I were your dynamo,
And you were my transformer!

Senator James H. Stout
Pioneer Menomonie Business Man
and
Founder of The Stout Institute
To Whose Memory
This Section of The Tower Is Dedicated

THE FOUNDER OF STOUT

AN EDUCATIONAL PIONEER

THE late Senator James H. Stout, lumberman, pioneer in education, and prominent citizen of Menomonie, was the founder of the famous school that carries his name. Mr. Stout was a man of far vision and philanthropic tendencies. He had an intense and generous interest in the welfare of humanity. He loved the boys and girls and they loved and admired him. It may be said that his later life was diligently devoted to the unfolding of an idea that had for its purpose the practical training of the mind and hand of the young people.

The school had its beginning in 1890 in a small way and from that time until his death in 1910 Mr. Stout's educational activities grew in interest and widened in scope with the development of The Stout Institute.

Mr. Stout's efforts in the service of education brought him to the front in a conspicuous way in Wisconsin, and as the school grew his work came into national prominence.

No sketch of his life in brief space can do justice to the man and his service to humanity. He gave unsparingly, unselfishly of his time, thought, and money to the upbuilding of the school that he had conceived for the "promotion of learning, skill, industry, and honor."

Menomonie, home of The Stout Institute, claims marked advantages from many viewpoints. Not only is it known throughout the country as a city of educational initiative, but it is commanding increasing attention for other excellent reasons. It is noted as a city of good homes, a city about which revolves the life of a rich, progressive, and promising agricultural community; the center of almost unlimited water power, developed and undeveloped; a city which holds forth exceptional prospects to the manufacturer; favored with splendid transportation facilities, it invites the attention of those interested in distribution; located on the banks of the Red Cedar River and Lake Menomin and surrounded by a beautiful country in which abound streams that are

well stocked with fish, it is in the heart of a paradise for the disciples of Izaak Walton, while the fertile prairies and restful valleys within easy distance are a lure alike to the home seeker and the tourist.

Among the industries which support this thriving community, agriculture must be accorded first position. Originally a part of the great timber district and the seat of the operations of the famous Knapp, Stout and Company, lumber manufacturers, Dunn County has gradually evolved into one of the richest farming areas in Northern Wisconsin. Dairying is the line of farming that is most favored and a tour through the districts contiguous to Menominie invariably surprises the traveler by the character of the farm homes which it reveals. Wisconsin is known as the greatest dairy state in the Union and Dunn County ranks among the highest of the seventy-one counties of the state in the output of butter. All of the cattle in Dunn County have been tested for tuberculosis by the State of Wisconsin. Milk that is produced by healthy cows has a greater value and is safer for children. Hogs from counties that have had their cattle tested sell at a higher price on the market.

While Menomonie is essentially an agricultural community as a center of a rich dairy section, dotted with flourishing creameries and cheese factories, it has a splendid representation along industrial lines. Prominent in the industries are three large brickyards, tapping inexhaustible beds of finest clay. The flour industry likewise commands especial attention. Products of these industries go to all parts of the world. One of the largest manufacturers of hardwood lumber in the state has its headquarters in Menomonie as does also one of the large chains of lumber yards. A piano factory, nurseries, and greenhouses, cigar factories, metal works, and dairy enterprises, including several large creameries, cheese factories, and a condensery contribute to a liberal payroll for Menomonie workmen.

Menomonie's retail facilities provide an exceptional service. The city is a trade center for a large area, attracting shoppers for miles around by the complete, up-to-date, and high quality stocks of goods. Wholesale establishments are also well represented.

Strong, growing banks form a vital part of the business life of Menomonie and provide complete financial facilities for the needs of the community. The deposits in these banks will aggregate about $7,000,000.

The City of Menomonie is under the Commission Form of Government, governmental affairs being in the hands of a mayor and two councilmen. How well the people are satisfied with this system was indicated in the fall of 1920, when by an overwhelming vote the electors decided not to return to the old aldermanic form. The city has several miles of well paved streets, a fine white way system in the business district, and many imposing public and private buildings which give the place a metropolitan aspect. Among the public buildings may be mentioned the commanding structures which form the home of The Stout Institute, a Federal Building, a Masonic Temple, County Court House, City Hall, and the Mabel Tainter Memorial, a beautiful stone edifice presented to the city about thirty years ago by the late Capt. Andrew Tainter, which contains a completely equipped theatre, public library, rooms for the G. A. R., and W. R. C., amusement room, and dining rooms available for public use.

Menomonie has several fraternal organizations with large, active memberships. Among them is Hosford-Chase Post No. 32, the American Legion, which in conjunction with its Auxiliary unit, maintains club rooms, where visiting Legionnaires are always welcome.

Within the city are a number of musical groups, including the famous Ludington Guard Band, one of the best in the state, which has been in existence for many years. The summer concerts given on Tuesday evenings by this band from their shell in Wilson Park draw thousands of people from the surrounding country.

The city maintains a fine public hospital at which the charges are made as reasonable as possible. It owns several parks, in addition to which are a beautiful parkway along the lake front, another along Wilson Creek Boulevard, and other pleasure grounds along the lake and streams, owned and controlled by the Menomonie Improvement Association.

The Menomonie Country Club enjoys a splendid nine hole golf course of incomparable beauty. Situated one mile from the city, on Federal Highways 10 and 12 and State Highway 79, on the banks of Wilson Creek, the location is ideal. Par for the nine holes is 36. The Club House is provided with dressing and lounging rooms for the men and women, showers, a pro and caddy room, a well equipped kitchen, a large dance and dining hall. The Country Club is available for use by visitors in Menomonie, and students of the summer school of The Stout Institute have the privilege of its use through arrangements with the school authorities.

The spiritual requirements of the community are provided for by several churches. The Congregational, Roman Catholic, two German Lutheran, Episcopal, Methodist Episcopal, Baptist, Norwegian Lutheran, and Evangelical Association groups have substantial church homes. Several have commodious parsonages. The pastors are men of ability and the auxiliary organizations reach out into the community life in a way to greatly extend the church influence.

A school nurse is regularly employed in connection with the public schools so that with the health and poor departments of the city government the needs of the people in these respects are well provided for.

By its last census, Menomonie has a population of 5,104, but in appearance, enterprise, and business activity it is ahead of most cities of its size.

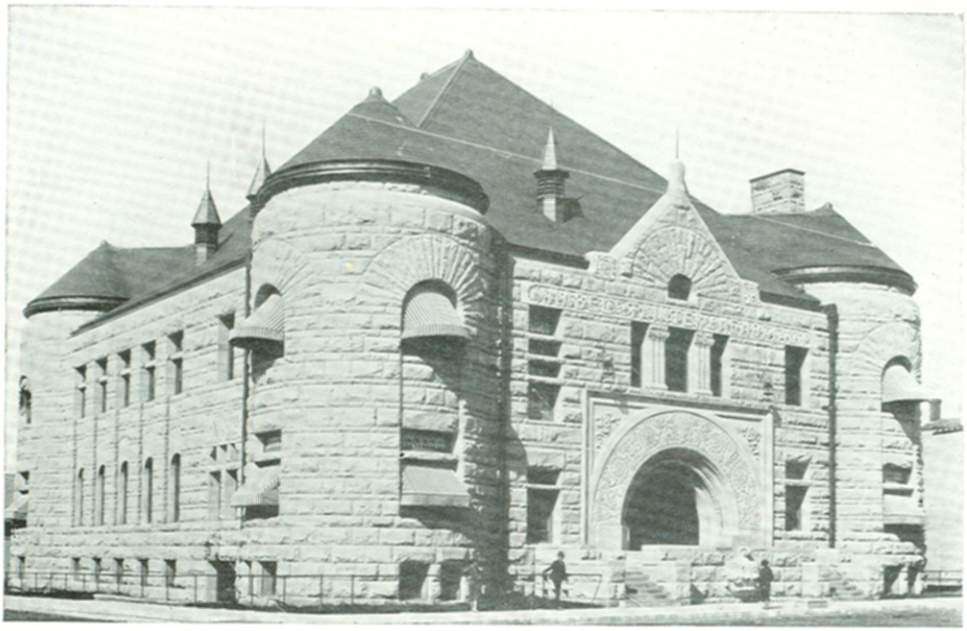

Its position as county seat of Dunn County makes it the official as well as the geographical and commercial center of the county. A circumstance which illustrates the importance of the city in relation to the surrounding country is the fact that ten rural free delivery routes emanate from the Menomonie postoffice, a number larger than that of any other county seat in Wisconsin.

Representing the commercial, industrial, civic, and social life of the community is the Menomonie Commercial Club, an active body of citizens whose endeavor is to make Menomonie a better city in the four lines indicated. The club is housed in the Masonic Temple, and its quarters are a convenient gathering place for many movements seeking the betterment of local conditions. The club is ever alert to welcome the newcomer and an interest in which it prides itself is that of seeing that Menomonie is known as "the city of a square deal."

Menomonie is easily accessible to the motorist. The city is located on five Federal or State trunk highways. Federals 10 and 12 run diagonally across Wisconsin, forming a direct artery from Menomonie to southern Wisconsin and Chicago and a direct route to Manitowoc. Highways 25 and 79 run north and south and 29 east and west, providing a center for a network of important highways that make it convenient for the motorist to reach Menomonie. Located about sixty-seven miles east of St. Paul, the city is reached by two important railway systems, the Chicago, St. Paul, Minneapolis & Omaha (comprising part of the Northwestern system) and the Chicago, Milwaukee & St. Paul Railway. Motor busses operate frequently on Highways 10 and 12.

The Hotel Marion offers resident guests and the traveling public modern accommodations by virtue of the complete renovation of the Hotel Royal and the addition of a strictly fireproof annex. Fifty-two rooms comprise the capacity of the new hotel; all have running water, telephone, and other modern appointments, while a large number are provided with private bath. Fine accommodations are also available at the Central House and other hotels.

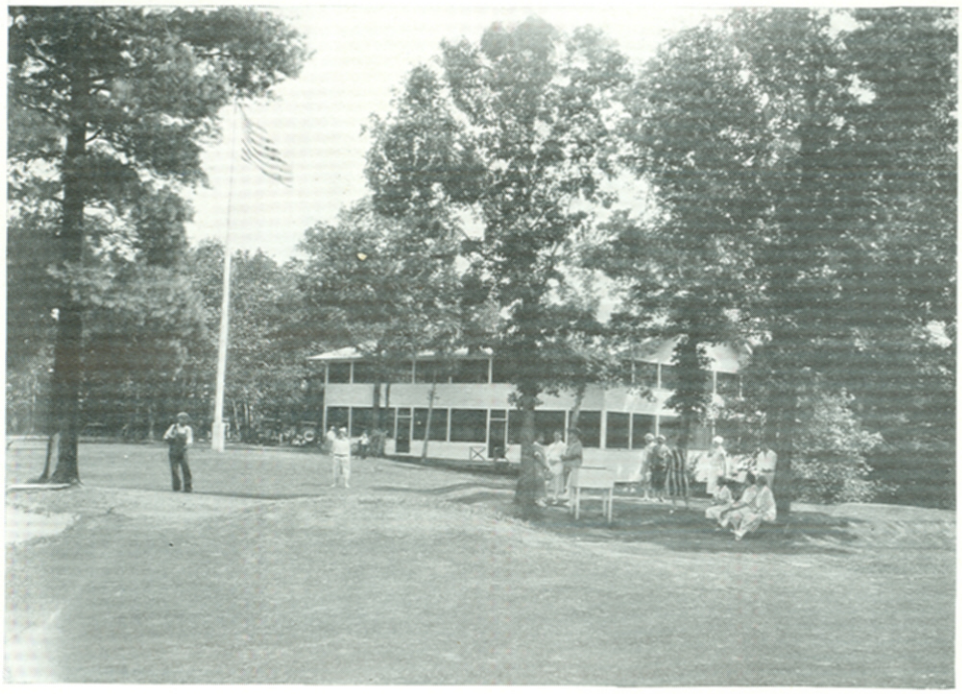

THE PUBLIC SCHOOLS

Emerson said, "Every great institution is the lengthening shadow of a great man." The truth of Emerson's statement is well illustrated here in Menomonie. Because of Senator Stout's position on the Board of Education of the Menomonie Public Schools, the shadow took shape and grew into the present Stout Institute. It was to the Public Schools that Senator Stout first turned his attention and it was in them that many of his progressive ideas were worked out. There is still reflected in the Public Schools much of the early progress which was developed when ideas new in educational thought were put into practice here.

The schools are organized along the lines suggested by the best modern practice into the senior high school, a junior high school, the intermediate and elementary grades, and kindergarten. The senior high school comprises the 10th, 11th, and 12th grades and has about 300 students. The junior high school comprises the 7th, 8th, and 9th grades and has about 250 students.

The courses of study in the senior and junior high school are organized around the five major fields of educational interest, namely: English, Foreign Languages, Science, History, and Mathematics. In addition to these, vocational work, manual training, home economics, and commerce are also taught. Opportunity for work in music and the fine arts is also offered. The school maintains, at a high standard, a band, an orchestra, and glee clubs for both boys and girls. A pupil with musical ability will find opportunity and encouragement to develop his talent.

The junior high school program is arranged to give the pupil a large number of comparatively brief contacts with the field of education. In other words, it proposes to give the students a sample of each subject that the senior high school has to offer. With this experience the student can enter the senior high school, knowing in a way his likes and dislikes, his special abilities, and with reasonable freedom of election select those lines of work which suit his interest best. Especial mention should be made of the exceptional opportunity for work along lines of manual training and home economics which is open to the high school students. All the facilities of Stout are available for this work, giving it a range and equipment far beyond that found in the average public school.

As proof of the quality of the high school work we point to the fact that the school is on the accredited list of the North Central Association of Colleges. This rating allows its graduates to enter without examination any college or university in the eighteen states comprising the Association.

The health of the children is carefully guarded. A graduate nurse is a regular member of the teaching force. She visits each room practically every day. Contagious diseases are detected promptly and epidemics prevented. Defects of eyes, ears, teeth, and throat are discovered and recommendation for correction made to the parent. Under-nourished children are formed into nutrition classes which meet for dinner one day each week. In addition, under-nourished children are detected and with the approval of the parents are given one feeding of milk each day at school. Correct foods are emphasized at the weekly luncheon. In Menomonie, parents can send their children

to school with confidence that their health will not be jeopardized; rather, under the careful supervision, the child has a chance to grow up not only mentally but physically.

On the whole Menomonie Public Schools are a decided credit to the city. They could be better schools; in fact, a virile public sentiment will make them better schools each year. The spirit of Senator Stout still lives in the hearts of Menomonie citizens. And always their public schools will spell to their boys and girls the one big American word, Opportunity.

Menomonie also has several other schools, including the school of the St. Paul's Lutheran congregation and that of the St. Joseph's parish. The former represents a congregation consisting of some three hundred families; the latter has a school enrollment varying between 110 and 125 pupils.

The Dunn County School building is located in Menomonie. This houses the Rural Normal School and the county agricultural school.

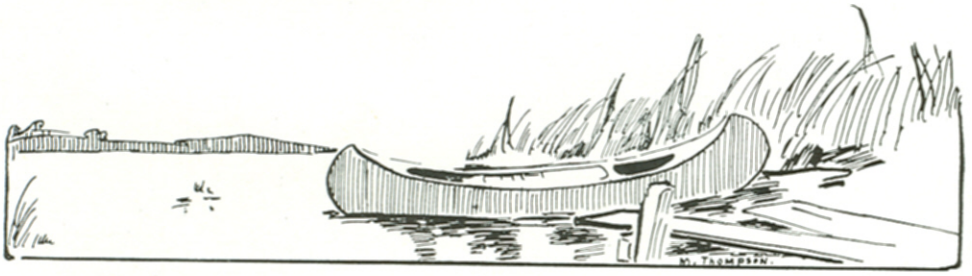

The Rural Normal School was one of the first to be opened in Wisconsin, having been started in September, 1899. Since September, 1924, it has had the Bowman Model School, which furnishes adequate opportunity for demonstration of methods and for practice teaching.

The Dunn County School of Agriculture and Domestic Economy has several buildings adjacent to the main building. A four year course in Agriculture and a four year course in Domestic Economy are offered. Several other shorter courses are also available. Active extension work is carried out along many lines through the county.
